

Welcome Back Parents/Guardians & Students!

I hope you had a wonderful and healthy summer. Welcome to our 2020 - 2021 school year. I am so excited to have your child in our school, and especially in my class. I hope to lead your child through a wonderful and fascinating experience by sharing my love and passion for both Math & Science. I will do all I can to help your child get through this school year. Through our teacher/parent communication and partnership we can ensure a successful and exciting learning experience for our children.

In order to have a successful, remote learning experience, there are a few things you should know:

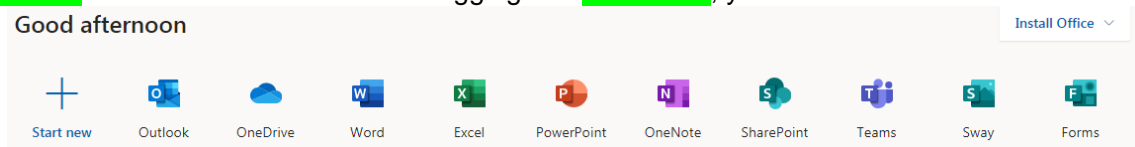

- Students should always begin their day by logging into **CLEVER**.

In **CLEVER**, students will find all the apps they need for class.

You can find the **CLEVER** website by going to our **Casimir Pulaski Homepage**.

Students should use their 6 digit ID @yonkerspublicschools.org and use their date of birth mm/dd/yyyy (example 09/08/2020) as their password. If they are prompted to create a new password it should be their first name and the number 1 (example: Michael1). This ID and password will be used to access all apps through Clever. It is important students remember both.

- **Office 365** is the student's email. After logging into **Office 365**, you will see this:

(Outlook is their email)

- **Office 365** is where students will access **TEAMS**.
Click on the **TEAMS** icon and find Mrs. Grippo's Class.

- **TEAMS** is where students will access all their assignments, communicate with their teachers through chat, and be able to connect virtually through live video.

There are helpful instructional videos on the Yonkers Public School website for parents/students.

- There will be apps within CLEVER that students will use throughout the year. Many students are familiar with these apps because we have used them in previous years in the classroom.
- Please click on my Virtual Classroom(easy access to all the apps), Class Expectations, and Supply List pages for further information.
- You can always reach me at: agrippo@yonkerspublicschools.org

Thank you always for your support. Together we will have a successful and rewarding academic school year!!!
