Dear Mrs. Dawn Boratz and Mr. Tai:

I would like to thank you very much for the wonderful coding course and the ten new Chromebooks.

I love the coding course because I really like playing with the car and seeing what it does. In addition, I really like the missions because I love challenges, and the missions are challenging.

I am also enjoying the new Chromebooks because when I do IXL on math, it is really easy to type in the answers. Also, the screens on the Chromebooks are way bigger than the screens on the tablets so it is easy to see everything clearly.

Thank you again. Stay well!

Sincerely,

Volvy Klein
