

Grading Policy

Class 5-1

01

Grades

Classwork, homework, projects, tests and quizzes form part of a student's grades. Completion and effort are a must to ensure students are demonstrating their learnings.

Attendance

02

Students need to be in school. Research shows that missing more than 10% of school, or MORE THAN 18 days, negatively affects student's academic performance.

03

Progress

By analyzing student's work throughout the year, formally and informally, students can demonstrate growth. This progress will affect their grade.
