All About Saunders High School

Since 1909, Saunders Trades & Technical High School has been committed to combine vocational and academic instruction that provided students with skills for employment and academic preparation for college. Students ballot to major in one of ten technical, vocational or occupational programs while participating in academic classes, taking Regents exams, as well as college preparatory courses.

The concentrated academic instruction prepares our students for post secondary learning experiences.

Academic instruction supports knowledge acquisition in their vocational, occupational or technical pathways and enables them to actively participate in and contribute to society.

It also offers active Work-Based Learning (WBL) experiences, preparing them for College, Career, and Civic Readiness (CCCR).

SAUNDERS MAGNET PROGRAMS

Saunders Trades & Technical High School offers 21st-century career and technical education (CTE) programming that prepares students for an entry-level job, college or both.

Saunders High School offers ten CTE magnet programs, all of which are endorsed by the New York State Education Department

[Technical Programs:](#) Architecture, Biology & Chemical Technology, Electronical & Computer Circuitry

[Occupational Programs:](#) Culinary Arts, Graphics Design, Cosmetology & Barbering, Fashion Design

[Vocational Programs:](#) Automotive Technology, Heating & Air Conditioning, Construction Technology

- Incoming freshmen will be placed in specialized programs they select on the School Choice application. Once a student is accepted to a Saunders program, he/ she is committing to the 4-year sequence. There are no program changes.
- All students must complete and pass the New York State required course, Career and Financial Management.
- The school day is arranged around a nine-period schedule with vocational, occupational and technical programs in a three-period block (10th, 11th, 12th grades)

SAUNDERS MAGNET PROGRAMS

All 12th grade magnets end in a mandatory senior exit project in order to graduate from Saunders Trades & Technical High School. This includes research, hands-on component, practical, and/or verbal presentations.

Any student that does NOT COMPLETE their assigned magnet program, Senior exit project, and/or NYS approved Industry exam will NOT graduate from Saunders Trades and Technical High School and will not cross the stage at our graduation. Students will be transferred to another YPS high school for graduation purposes and receive their diploma from his/her new high school.

ARCHITECTURE

PROGRAM OVERVIEW

The Architecture Technology program at Saunders Trades & Technical High School provides students with a comprehensive foundation in architectural design and drafting. The curriculum emphasizes both traditional and modern techniques, equipping students with skills in computer-aided design (CAD) and architectural modeling. Through hands-on projects, students learn to create detailed architectural plans and understand the principles of design, construction, and sustainability. The program also encourages creativity and problem-solving, enabling students to develop their unique design philosophies.

In addition to technical skills, the program fosters critical thinking and collaboration, often involving team-based projects that simulate real-world architectural challenges. Students engage with industry professionals through guest lectures and field trips, gaining insights into the architecture field. By the end of the program, graduates are well-prepared for further education in architecture or related fields, or for entry-level positions in the construction and design industry, having built a strong portfolio that showcases their capabilities.

ARTICULATION AGREEMENT: Westchester Community College

MAGNET EXIT PROJECT: Architecture Open House

TECHNICAL SKILLS

AutoCAD Drafting, Manual Drafting, 3D Printing, 3D Model Making, Laser Cutting, Blueprint Reading, Rendering, Estimating

CAREER OPPORTUNITIES

Architect, architecture drafting, mechanical drafting, civil designer, civil engineers, estimators, urban planner.

BIOLOGY & CHEMICAL TECHNOLOGY

PROGRAM OVERVIEW

Students in the Biology and Chemical Technology magnet will learn the techniques necessary to work in a college or industrial science lab. Students will understand the scientific approach to observation and inquiry. Students will also be well prepared to continue their education in laboratory sciences such as biology, environmental science, and chemistry. Students will be given the opportunity to explore various careers in science through shadowing and school to work programs.

Each student must do an individual research project that he or she will present in the end of the senior year. The projects vary as do the careers. Some examples of past projects include:

- Can methyl paraben in personal care products be quantified?
- Can oysters be reintroduced into the Hudson River?
- Is the oxybenzone in our suntan lotion really degrading?
- Can sunflowers be used to remove lead from water?

Students have presented their projects at local science fairs as well as ecological symposiums. Guest lecturers enhance our programs and enrich our students by sharing real world and career related experiences.

Student experiences are not limited to in-class activities. The course includes involvement with Community partners such as Groundwork Hudson Valley, The Center for the Urban River at Beczak, The science barge, and Trout in the classroom.

Students can also take the AP exam in Environmental Science their senior year as well as earn credit from SUNY Westchester for their senior year.

ARTICULATION AGREEMENT: Westchester Community College

MAGNET EXIT PROJECT: Tech Prep Day

TECHNICAL SKILLS

Basic solution chemistry, Water Quality analysis, Soil analysis, Organism inventories, Bacteria culture, Algae culture, Basic hydroponics, Gel electrophoresis, Spectrophotometry, Light microscopy, Waste disposal, OSHA Safety Standards, Data analysis

CAREER OPPORTUNITIES

Biochemists and Biophysicists, Biological Technicians, Environmental Scientists, Environmental Engineers, Urban and Regional Planners, Environmental Law, Forensic Scientist, Doctor, Pharmacist, Teacher

ELECTRONIC & COMPUTER CIRCUITRY

PROGRAM OVERVIEW

Electronics and Computer Circuitry (ECC) students explore the latest technology in personal computing, computer networking, computer programming, cybersecurity, AI, Internet of Things (IoT) and robotics. Students use soldering irons, hand tools, meters and oscilloscopes to troubleshoot and build computers, robots, amplifiers, speakers, wireless devices, power supplies and more.

Sample units of study include electronic components, breadboarding/prototyping and soldering, DC series and parallel circuits, ladder networks, motors, digital logic, computer hardware, computer operating systems, networking, security, optimizing and troubleshooting PC systems. Students also learn solid modeling and 3D printing for designing and building electromechanical systems.

Students who complete this program are equipped with the skills needed for employment in the electrical/electronics, computer and robotics industry, and are often recruited by local companies. Graduates frequently pursue further training at technical schools, colleges, or in the military.

ARTICULATION AGREEMENTS: Westchester Community College, College of Westchester
MAGNET EXIT PROJECT: Tech Prep Day

TECHNICAL SKILLS

Use of basic hand tools, Soldering, Use of Digital Multimeters, Use of Oscilloscope, Use of Printed Circuit Board, Design Software, AutoCad, AutoDesk Inventor, Use of Arduino, Use of 3D printers, Use of routing table, Fabrication of networking cables, Building and troubleshooting PCs, Use of Computer Aided Engineering Software, Use of Wifi/Bluetooth capable microcontrollers and sensors

CAREER OPPORTUNITIES

Computer programmer and analyst, robotics, technical support specialist, web developer, systems engineer, network engineer, field service technician, IT support technician, IT support administrator, electronics technician, bench technician

CULINARY ARTS

PROGRAM OVERVIEW

Culinary Arts is a hands-on food preparation program that provides students with broad exposure to the art and science of cooking. Students will develop their culinary skills learning the ProStart curriculum in food production, dining etiquette, customer service, food safety and sanitation.

Students in the Culinary Arts program work toward earning ProStart certification. They learn how to skillfully prepare and serve meals that look as good as they taste. Working alongside experts in the field, these chefs-in-training develop a variety of highly sought-after culinary skills and techniques through hands-on training and daily work experiences. Equally important is students' increased knowledge of food science, diet and nutrition.

Students have the opportunity to earn a Career and Technical Endorsement on their diploma by successfully passing the industry-standard Precision performance assessment.

ARTICULATION AGREEMENTS: Westchester Community College, Monroe College

MAGNET EXIT PROJECT: Annual Cake Walk

TECHNICAL SKILLS

Safe & sanitary food handling, ServSafe certification, Operating kitchen equipment, Operating baking equipment, Restaurant operations, Knife skills, Hot food preparation, Cold food preparation, Cake decorating skills, Preparation methods of: cooking, breads, cakes, custards, pies, pastries

CAREER OPPORTUNITIES

Chef, Caterer, Baker, Food & Beverage Manager, Restaurant Manager, Nutritionist, Entrepreneur

COSMETOLOGY AND BARBERING

PROGRAM OVERVIEW

The Cosmetology program at Saunders Trades & Technical High School offers students a comprehensive education in beauty and personal care. This program is designed to equip students with both theoretical knowledge and practical skills in various aspects of cosmetology, including hair cutting, coloring, styling, skin care, and nail technology. Students engage in hands-on training in a well-equipped salon environment, which prepares them for real-world applications in the beauty industry.

In addition to technical skills, the program emphasizes professionalism, customer service, and business practices, essential for success in the cosmetology field. Students also have the opportunity to prepare for state licensure exams, allowing them to enter the workforce as certified cosmetologists upon graduation. Overall, the program aims to foster creativity and confidence, empowering students to pursue careers in the dynamic and evolving beauty industry.

ARTICULATION AGREEMENTS: College of Westchester, SUNY Morrisville

MAGNET EXIT PROJECT: Annual Hair and Makeup Show

TECHNICAL SKILLS

Properties of the Hair/Scalp, Shampooing/Conditioning, Hair Cutting, Artistry in Hair Styling, Hair Coloring, Manicures, Pedicures, Skin Care, Make Up Application, Salon Business Practices

CAREER OPPORTUNITIES

hair stylist, manicurist/pedicurist, salon owner, make-up artist, skin or nail technician, desairology, hair show coordinator, state licensing examiner, esthetician, color technician & perm technician

FASHION DESIGN

PROGRAM OVERVIEW

The Fashion Design technology program is a four-year career and technical education program in the occupational studies branch at Saunders Trades and Technical High School devoted to the teachings on how garments are made for various apparel segments in the fashion industry. Students explore the fundamentals of garment construction such as professional draping, patternmaking, and professional sewing techniques. Students are prepared with the necessary tools to develop professional fashion design portfolios utilizing various fashion illustration and concept design methods.

Students will be exposed to the overall workings of a professional design studio in the areas of apparel and textile design. Students will gain the ability to execute a design idea from sketch to finished garment. Emphasis will be placed upon problem solving, creative thinking, the use of industry terminology, tools of the trade as well as 21st century career readiness skills.

ARTICULATION AGREEMENTS: College of Westchester, SUNY Oneonta, SUNY Delhi, Westchester Community College

MAGNET EXIT PROJECT: Annual Fashion Show

TECHNICAL SKILLS

Fashion Illustration, Garment Construction, Draping/Patternmaking, Trend Forecasting, Textile Science, Industrial Sewing, Business Focus on Merchandising and Marketing

CAREER OPPORTUNITIES

Fashion Designer, Merchandiser/buyer, Advertiser/promoter, Visual display specialist, Retail manager, Production manager, Technical designer, Clothing Alterations, Seamstress, Textile Designer

GRAPHIC DESIGN

PROGRAM OVERVIEW

The Graphics Design curriculum offers a mix of academic and hands-on coursework. Students are exposed to digital design, traditional art methods, and professional workplace practices. The program offers instruction to prepare students for careers that focus on visual storytelling and using word and image to develop creative concepts. Students learn about emerging technologies and gain experience working with a Xerox Color Press printer, Canon scanners, and Apple computers. They are trained in industry standard software, including Adobe Illustrator, Photoshop, and InDesign, and are taught not only technical skills, but also how to think creatively. Graduates of the program demonstrate a mastery of these skills and are poised for positions in the industry as graphic designers, multimedia designers, package designers, and more.

During their senior year, students become curators of their own work, gathering their past pieces into a final portfolio. Their portfolios include observational still-life drawings and an array of digital work, including posters, package design, photo composites, and branding design. At the end of the year, students are required to present their work to a Portfolio Review panel of their peers and industry professionals. The seniors explain and defend their work and receive feedback. This experience helps prepare them for public speaking in college and the workplace. Portfolio Review also serves as a venue to showcase the artwork created by lowerclassmen, which further instills a sense of family and community among students in the program. The review provides an opportunity for all the students to see each other's work, which isn't always possible in the classroom setting.

Students in the Graphic Communications program gain specific practical and professional skills that give them an advantage over other college and job applicants. The program incorporates as much real-world work-based learning into the curriculum as possible.

ARTICULATION AGREEMENTS: College of Westchester, SUNY Farmingdale

MAGNET EXIT PROJECT: Annual Portfolio Review

TECHNICAL SKILLS

Adobe Creative Suite, Digital Photography, Marketing, Advertising, Typography, Professional Printing

CAREER OPPORTUNITIES

Illustration, Desktop Publishing, Digital Photography, Pre-Press Technician, Video Editing, Videography, Web Design, Animation, Commercial Photography, Film & Video Production, Graphic Design, Public Relations & Marketing

AUTOMOTIVE TECHNOLOGY

PROGRAM OVERVIEW

The Automotive Technology program at Saunders Trades & Technical High School offers students a comprehensive education in automotive technology, focusing on both theoretical knowledge and hands-on skills. Students engage in learning about vehicle systems, diagnostics, and repair techniques, covering essential topics such as engine mechanics, electrical systems, and brake systems. The curriculum is designed to prepare students for entry-level positions in the automotive industry, equipping them with the necessary tools and understanding to succeed in a rapidly evolving field.

In addition to classroom instruction, the program emphasizes practical experience through lab work and real-world applications. Students have access to modern equipment and tools, allowing them to work on actual vehicles and gain firsthand experience. The program also promotes industry certifications, which enhance students' employability upon graduation. By blending academic learning with practical skills, the Automotive program at Saunders Trades & Technical High School aims to foster the next generation of skilled automotive technicians.

ARTICULATION AGREEMENTS: Lincoln Tech, Alfred State College, SUNY Delhi, NYADI:

The College of Automotive & Diesel Technology

MAGNET EXIT PROJECT: Skills Assessment

TECHNICAL SKILLS

Tool Use & Safety, Engine Performance, OSHA Safety Standards, Braking Systems, Suspension and Steering, Electronic Service, Information Systems

CAREER OPPORTUNITIES

Electrical technician, wheel alignment technician, brakes technician, automotive technician, auto sales, automotive parts specialist, auto reconditioning.

CONSTRUCTION TECHNOLOGY

PROGRAM OVERVIEW

The Construction Technology program teaches students the essential skills needed to begin a career in the building and construction trades utilizing the construction of a full size house project, students will gain real-world knowledge and hands-on experience in the fundamental components of carpentry, drywall, painting, framing, roofing, floor installation, door and window installation, blueprint reading, drafting, siding, electrical wiring, plumbing, trim installation, proper tool use, and OSHA safety training.

Students will develop and demonstrate integrated academics and employability skills through class activities, projects, live clinic, community service and professional development. Senior students will have the opportunity to do co-op work in the field during school hours through our work based learning program. Students are also provided with the opportunity to earn a Career and Technical Endorsement on their diploma by successfully passing an industry-standard technical assessment.

ARTICULATION AGREEMENTS: Alfred State College, SUNY Delhi, SUNY Morrisville

MAGNET EXIT PROJECT: Annual Construction Technology Showcase

TECHNICAL SKILLS

Blueprint reading, Drafting, OSHA Safety Standards, Framing, Roofing, Siding, Trim Install, Drywall, Electrical Wiring, Plumbing, Window Installation, Door Installation, Floor Installation, Painting

CAREER OPPORTUNITIES

Carpenter, Framer, Plumber, Electrician, Architect, Home Energy Analysis Technician, Building Inspector, Cost Estimator, Engineer, Mason, HVAC Technician, Building Maintenance

HEATING, VENTILATION & AIR CONDITIONING

PROGRAM OVERVIEW

The HVAC program at Saunders Trades & Technical High School provides students with comprehensive training in heating, ventilation, and air conditioning systems. Designed to equip students with essential skills, the curriculum covers both theoretical knowledge and practical applications. Students learn about system design, installation, maintenance, and repair, gaining hands-on experience with real equipment and tools. The program also emphasizes safety protocols and industry standards, preparing students for a career in a vital and growing field.

In addition to technical skills, the HVAC program at Saunders fosters critical thinking and problem-solving abilities, essential for success in the industry. Students have opportunities for internships and collaborations with local businesses, enhancing their real-world experience and employability. The program not only prepares graduates for entry-level positions but also lays the groundwork for further education and certifications in HVAC-related disciplines, making it a valuable pathway for aspiring technicians.

ARTICULATION AGREEMENTS: Lincoln Tech, SUNY Delhi

MAGNET EXIT PROJECT: Annual HVAC Competition

TECHNICAL SKILLS

AutoCAD Drafting, Tool Use and Safety, Soldering, Sheetmetal Fabrication, Electrical Wiring, Braising, Machinery Operation, Troubleshooting, OSHA Certification, EPA Certification

CAREER OPPORTUNITIES

HVAC Technician, Building Maintenance, Plumber, Business Owner, Pipe Fitter, Oil Burner & Heating Mechanic, General Contractor, HVAC Installer, Refrigeration Technician, Specifying engineer
