Noticing the Good

Roosevelt High Students Shine at Yonkers' First-Ever Math Roundtable

Students from Roosevelt High School took part in the inaugural Yonkers Public Schools Math Roundtable, an exciting new event aimed at fostering collaboration and problem-solving skills among young mathematicians. The competition brought together students from across the district to tackle challenging math problems in a dynamic, team-based setting.

Roosevelt's participants showcased impressive critical thinking and teamwork, earning praise from educators and organizers. "It was inspiring to see students so engaged in mathematics," said Ms. Mercadante, an event coach and judge. "This is just the beginning of a new tradition for Yonkers Public Schools."

With the event's success, the district hopes to expand the Math Roundtable in future years, encouraging even more students to develop a passion for problem-solving.

Word of the Week

DEFINITION – verb	SENTENCE
• To treat a person, group, or concept as insignificant or peripheral.	The policy changes threatened to marginalize the voices of the community members.
