Noticing the Good

Mapping the Effects: Students Navigate Alcohol's Impact in ROAD Program

Students in Mrs. Snell's Health class are actively engaging in a body part demonstration to explore how alcohol moves through the body. This hands-on activity is part of the ROADD (Reduce Our Adolescent Drinking and Drugging Driving) program, in collaboration with the Student Assistance Program. Through this initiative, students gain valuable insights into the effects of alcohol on the body and the importance of making safe, informed choices.

Word of the Week

"ALWAYS MOVING FORWARD"
