When you click the edit button (the pencil) you will get a pop-out menu of the classes you are able to take. (Please be sure to check with your guidance counselor.) For example, If you have already taken Earth Science and Living Environment, put a check in the box next to Chemistry. After you choose, scroll down and click "okay".

| | | | Please choose one scien | ce course | | |
| 1 | Course Name | Number | Course Description | Credits | B Prerequisite Note | Alerts |
| | Chemistry/R | SCI3301 | This course provides a rigorous presentation of the principles of chemistry. Topics include matter and energy, atomic theory, chemical bonding, stoichiometry, kinetics and equilibrium, acid and bases, electrochemistry, and organic chemistry. The course follows the Regents Core Curriculum in Chemistry and requires abstract reasoning skills and a qonsiderable amount of problem-solving. Lab work is an essential and integral part of this course and students must complete the laboratory requirement in order to sit for the Regents Exam in June. The 1,200 minute laboratory requirement for this exam must have been completed and documented. | 1 | | |
| 0 | Earth Science/R | SCI1101 | This course introduces students to many aspects of | 1 | | |

After you have clicked "**okay**" you will return to the course page and see that a green check mark has appeared by the subject area.
