

Thank You

The Yonkers Board of Education and administration appreciates, values and respects the unique cultural, instructional and aspirational contributions every **staff member** offers to our learning community.

Through your diligent work our students have opportunities to expand and explore their potential. Together, let us remain relentlessly committed to the work you provided over the past two years.

Every District employee is a role model for our students and families. In every action we take, please continue to execute it with kindness and respect. Thank you for contributing to our students' success!
