“I didn’t know what major to pick in college. I did know that I wanted to help not just myself but the world around me. At Westchester Community College, I found an unmatched passion for wanting to learn each and every day and most importantly I’ve fallen in love with the process of becoming who I want to be. Being acknowledged for my academic accomplishments is simply remarkable. I am truly grateful for the opportunities and scholarships that have come my way. They have allowed me to continue my journey. My major is Nursing and I want to become a nurse practitioner or a doctor. Giving back and aiding the world around me is what motivates me.”

FUNDING YOUR FUTURE

PAYING FOR COLLEGE: FINANCIAL AID AND SCHOLARSHIPS

Westchester
Community College

State University of New York

HOW CAN I FUND MY COLLEGE EDUCATION?

There is money out there to help you pay for college, and at Westchester Community College we are prepared to help you find it. Here's an overview of financial support available to our students:

GOVERNMENT-SUBSIDIZED FINANCIAL AID:

Federal and state programs provide funding to support your college education. These include Federal Pell Grants, Federal work study, the New York State Tuition Assistance Program, the New York State Excelsior Scholarship, and New York State DREAM Act awards.

Most aid is available to students with financial need. Follow the steps listed on the back of this brochure to find out what you qualify for. Complete your financial aid applications – you might be surprised!

WCC FOUNDATION SCHOLARSHIPS AND GRANTS:

The Westchester Community College Foundation raises money to help students like you achieve their educational goals. Each year, about \$2 million are awarded to deserving students. Scholarship awards are available for many types of full-time students: incoming, continuing, graduating students who are continuing their education at 4-year institutions, international students, and DREAMers.

All full-time Westchester Community College students who apply for financial aid will be automatically considered for Foundation scholarships. Most scholarships are awarded in the fall and provide a full academic year of support. Awards renew for another academic year if all requirements are met.

Some scholarships require additional applications for consideration. Visit www.sunywcc.edu/scholarships for more information.

OTHER SOURCES:

The Office of Student Financial Assistance can help you find other sources of support, including:

- Private scholarships from outside the college
- Federally-subsidized loans
- Private loans

Our Career Center can help you find part-time employment or paid internships.

Kyrie overcame homelessness, domestic violence, and food insecurity largely due to the support available at Westchester Community College. Scholarships made her college education feasible. Kyrie went on to study at New York University (NYU) with a full-tuition scholarship where she graduated with Honors. She has since gone on to complete her Masters of Social Work at the University of Michigan. Kyrie now works in her field of study as a case manager helping refugees resettle in the United States. Receiving scholarships through Westchester Community College helped her plan her future with confidence.

FINANCIAL TIPS

GRADUATE ON TIME

Taking 15 credits a semester will help you graduate on time. Reducing your time in college saves money on tuition and expenses. Did you know that a fifth class can be taken in one semester, often free of additional tuition?

TEXTBOOKS: RENT OR BUY USED

A Student can save hundreds of dollars a year by first searching for used or rental textbooks before buying new.

TAKE ADVANTAGE OF TAX CREDITS

Tax credits like the American Opportunity Credit and the Lifetime Learning Credit can offer up to \$2,500 a year in tax credits to offset your cost of attendance.

BORROW WISELY

Be aware of which aid types require repayment. Scholarships never require repayment. Only borrow what you can afford to repay.

DEVELOP A FINANCIAL PLAN

Use SUNY Smart Track's Financial Literacy Tools to explore your path after college and develop a financial plan. Learn more at www.suny.edu/smarttrack/literacy

PRIVATE SCHOLARSHIP SEARCHES ARE FREE

Applying for private scholarships from outside the college can result in money for tuition and expenses that does not need to be repayed. Every bit counts towards your expenses; books and travel costs can be offset by multiple small awards. Start your search here:

Why Visit Career Services?

I'm not sure of my college major

Career Counselors help students answer these three basic questions-
Who Am I? Where am I going? How do I get there?

A "Career Coach/Counselor" can help you learn how to answer these questions and assist you in developing an educational plan based on your interests, skills and values. Learn about and take advantage of the resources that are available to you.

What careers are related to my college major?

Great question! Some are easy and specific, some are more complicated and have many options. Career Counselors can help you figure out where and who to ask for this information.

Check out our new **Career Coach** tool:

<http://www.sunywcc.edu/careercoach>

I need help finding a job! What is a resume?

Career Counselors are skilled at assisting students in learning job search strategies.

This includes:

- Writing a resume
- Learning to interview successfully
- Learning all the creative ways to finding a job and making connections.

Career Services has an online job board called College Central Network where our partner companies post jobs and internships. You may create a resume, learn job search techniques and sign up for workshops and campus events.

Are internships important? How many will I need?

Studies show that employers expect college students to have experience before they graduate. What better way to gain valuable experience than through an internship/applied learning opportunity which is a wonderful resume booster!

When should I connect to the Career Services?

As early as possible! The more time we have the more we will accomplish!

STUDENT RESPONSIBILITIES

Understand your Disability

You need to know about your disability. Know the things that you do well. Know the things that are difficult for you. Know what assistance has been helpful to you in managing your disability.

Plan Ahead

Coming to college means rearranging your life. Financial needs, time demands, study schedules and course work vary greatly from high school. College courses require more study time outside of the classroom. Expectations of student performance are greater, and competition may be more intense. These expectations can be met with good planning. Apply for financial aid early. Consider the number of hours it will be necessary for you to work. Make arrangements for transportation and child care. Family and personal responsibilities and time commitments must also be considered. Set realistic goals and priorities for course work.

Establish Contact with The DSO

Students with a documented disability, in need of accommodations, are responsible for disclosing this to the Disability Services Office (DSO) and providing documentation at disability.services@sunywcc.edu.

Once documentation has been approved, each semester the student can make an online request for accommodations by completing the Request for Referral to Faculty form <https://www.sunywcc.edu/student-services/disability-services/request-for-referrals-to-faculty/>.

Speak to your Professors

Once the student's request for accommodations is approved, the DSO staff will email professors a Referral to Faculty letter at their SUNYWCC email address, informing them of the accommodations the student is entitled to. Please note, that accommodations are not retroactive and not all accommodations from high school carry through to college. It is strongly recommended that the student discuss their accommodations with their professors at the beginning of the semester.

Make Contact Often

You may want to make contact regularly to talk over how you are progressing in your courses and to identify your needs in each class.

Be Aware of Procedures and Deadlines

Refer to the Procedure to Request Testing Accommodations document when you sign up for your accommodations. If you must take your exam outside the classroom, it is your responsibility to complete a Request for Testing Accommodations form at least 3 business days before your exam. This can be completed online at <https://www.sunywcc.edu/student-services/disability-services/online-testing-accommodations-request/> We may not be able to accommodate you if you do not give advanced notice.
