

Dear Parents and Guardians,

Here are some helpful ideas to do with your child.

1. Visit my teacher page on School 5 webpage on left hand side Library room. Read a book together and ask them to retell the story to you. Have them list the characters, setting and problem in story.
2. There is also a math room on my teacher page. Each room is labeled with topics. For example, Adding to 10.
3. Click on clever and work in IXL, sumdog, iredy or smarty ants, starfall.
4. Practice tying their shoes and zippering their coats.
5. Review the HFW flashcards.
6. Limit TV and video games

Sincerely yours,

Mrs. Fata
