

Bio-Chem Summer Work
Rising Senior Addition

Mandatory work:

1. Have Fun!
2. HAVE FUN!!
3. H A V E F U N ! ! !
4. Find 10 sources for your tech prep project. They all must be VALID sources. At least 4 sources should be primary sources. Make a bibliography using these sources. Use MLA, APA or Chicago Manual of Style for the format. For each source write a paragraph that explains what the source shows us and why you are using it.
5. Upon our return we will start tech prep immediately. Please make suggested corrections on your grant and power point presentations and be prepared to present when we walk in.

Optional work: If you would like you can get a head start on next year and/or you can earn extra credit for the 2024-25 year.

Take pictures of ecological and environmental issues that you encounter over the summer. During the year you will be given a project where you will be asked to take photos of environmental issues in Yonkers and categorize them.

CTE Work based Learning Hours: Earn points for lab next year by collecting WBL hours. WBL hours include things such as; volunteering for an environmental organization such as the Beczak or Ground Works Hudson Valley, volunteering at a hospital, working at a pharmacy and working at a doctor's office. Any job or volunteering opportunity that involves chemistry, biology or environmental science. Bring in a "time" sheet that includes; job, location, date, hours and signature of supervisor. Please note that in order to get WBL hours you NEED to complete a coop packet which you can get from me, BEFORE you start.
