School Theme: Academically Talented Program

- Students must meet entrance requirements and apply by January 6, 2023
- Research-based gifted teaching and learning strategies are used to meet the educational and social needs of gifted students
- Differentiated instruction; such as curriculum compacting address students' individual academic strengths and encourages them to explore subjects in much greater depth
- Emphasis on creativity, higher order thinking skills, and experiential learning
- Parents are actively engaged in the school community; through classroom activities, workshops and PTA funded programs
- School-wide Enrichment Program

- Students participate in national academic competitions
- Middle School STEM Afterschool Program

Entrance requirements:

- For students entering Pre-K and Kindergarten, an individual evaluation is administered using a nationally-normed standardized aptitude test.
- For students entering Grades 1-8, evaluation is based upon multiple measures - a nationally-normed standardized test of learning ability, New York State Assessments, report card grades, and teacher recommendations. Please be advised that there are usually a limited number of openings in grades 1-8.
