

St. John's University

Research Opportunity

Hello! We are currently seeking families of children between the ages of **8 to 11 years old** (grades 3 to 6) to participate in a research project which is aimed at learning more about how children think, feel, and behave in different situations.

By participating, children and a parent would be asked to complete a few questionnaires.

Once finished with their questionnaires, families will then be entered into a random drawing for a chance to win one of three \$150 Amazon gift cards in return for their participation!

To learn more about this opportunity or to express your interest in participating, please go to the following link:
