

Hearing Screening Program

The Yonkers Public Schools Nursing Team will conduct hearing screenings throughout the school year.

A hearing test will be conducted for grades Pre-K or K, 1, 3, 5, 7 & 11, and at any time deemed necessary, if not done during your child's annual physical examination, recommended every 12 months.

The screening results that may indicate a possible hearing issue that requires a more thorough evaluation by a health care provider, will be provided in writing to the parent/guardian and the student's teacher(s).

Hearing screening is not required if such examination conflicts with your sincere or religious beliefs. If you wish to opt out, please submit a written and signed statement to the school's principal or nurse. Supporting documents may be requested.
