

September 3, 2021

Dear Parents,

It is with great enthusiasm that I welcome your child to 5th grade. I know that we will have a very exciting year together despite the challenges we are facing with the pandemic!

As a creative and innovative educator, I continually strive to make learning enjoyable and exciting as I have found that motivating students will enable them to grasp concepts more steadfastly. With an in-depth understanding of the different ways in which children learn, I adapt my instructions to suit different learning styles, thus always providing the students with a motivating, positive, and safe learning environment. I am devoted to ensuring students' achievement not only in the classroom, but also to their ability to be productive members of their households and communities. My goal is for my students to grow up and to make the world a better place. It is my belief that all children CAN learn and it is my goal as an educator to make that happen. I believe in life-long learning and will share my passion for education with your children.

I am looking forward to working with you to ensure success for your child. Please feel free to contact me through email as and when necessary.
