

# TODAY'S AGENDA: December 1

- Work on Khan Academy Mission:
  - > Data Distributions
- Today's Objective: **Small-Group Lesson**
  - > Students will be able to determine the Standard Deviation of a Population
- Today's Standard:
  - > Summarize, represent and interpret data on a single count or measurement variable.

Struggling	Needs Practice
R Goff Acosta Delyn	R Alvarado, Meilin

# Standard Deviation of a Population

The following data points are the number of games pitched by each of the Greenbury Goblins' starting pitchers last season.

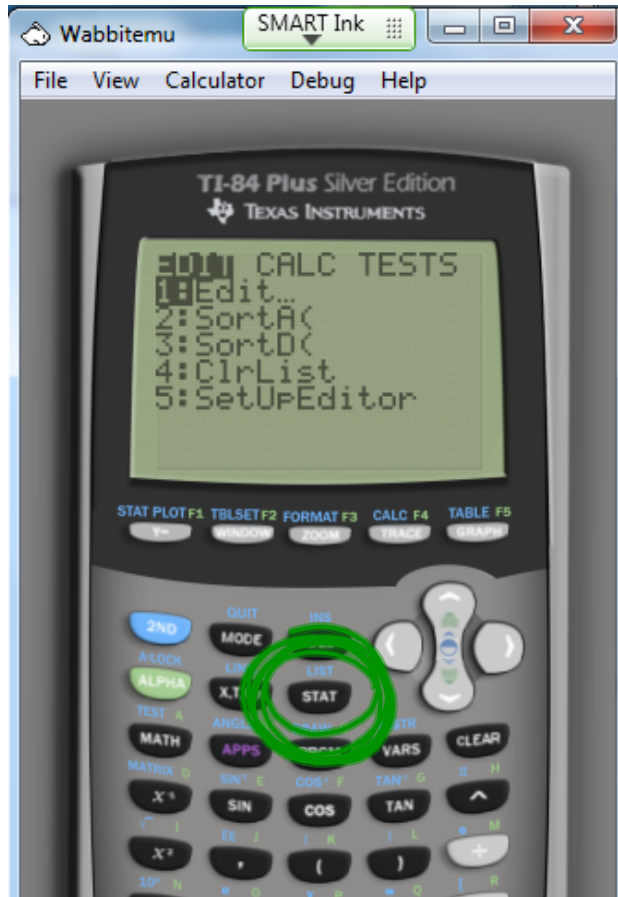

3, 2, 4, 7

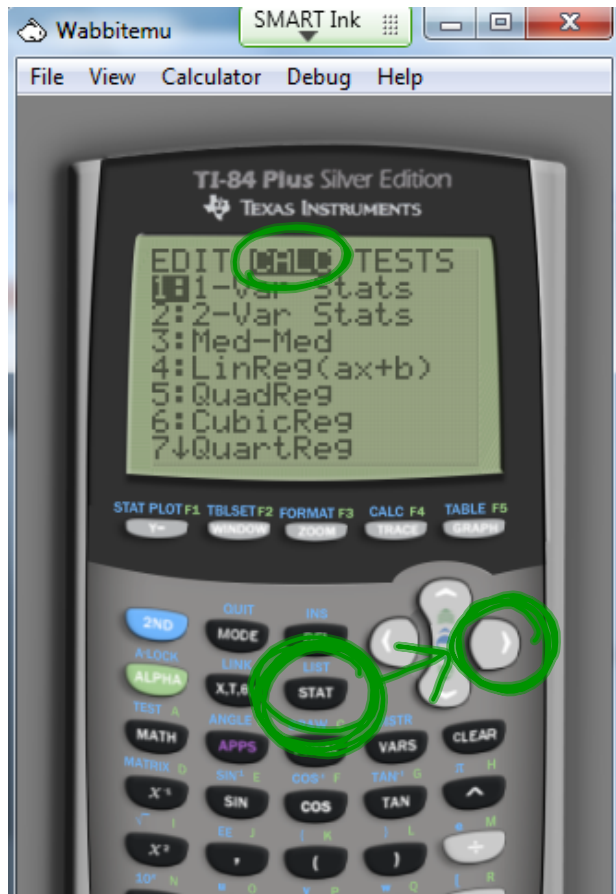

6

Find the standard deviation of the data set.

*Round your answer to the nearest hundredth.*

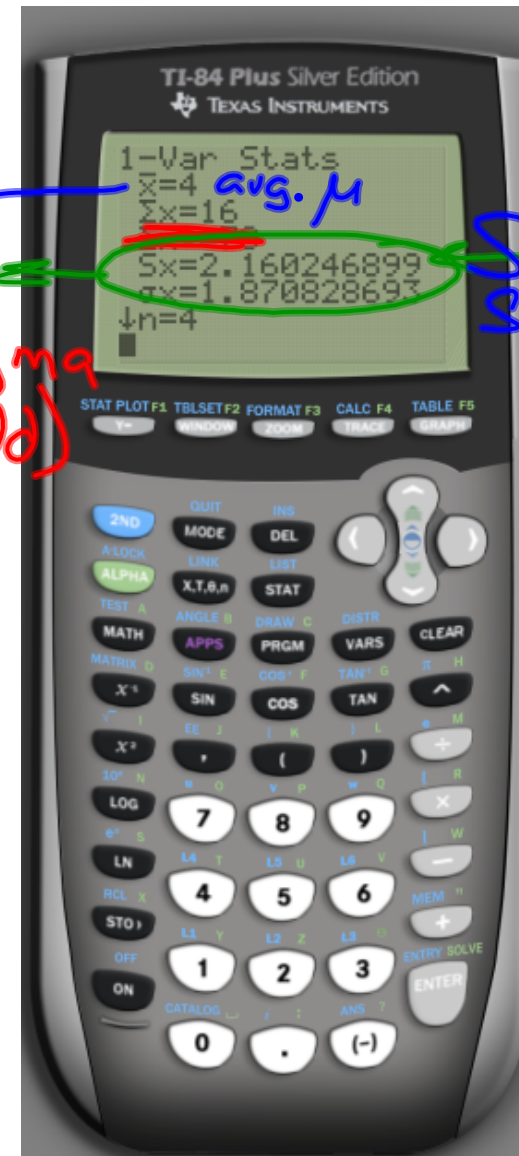

1.87 games

$\bar{x}$ ,  $\bar{x}$ bar  $\leftarrow$  avg.  $\mu$   
 $\sigma$   $\leftarrow$  Sample  
 $\Sigma$  = Sigma (add)  
 $\sigma$  = all

Enter x2

Justin did push-ups for the past 5 days. The following data points are the number of push-ups he did each day.

21, 24, 24, 27, 29

Find the standard deviation of the data set.  
*Round your answer to the nearest hundredth.*

push-ups
