

Summer Packet

Fourth Graders Entering Fifth Grade

Dear Parents and Students:

We look forward to having you in fifth grade! In order to maintain academic success, we must continue to learn, practice, and review, even over the summer. By taking time to review and practice essential math and reading skills over the summer, students will create more opportunities to find success the following year, while preventing summer learning loss.

Every student will need to complete a summer math packet. This packet is due on the first day of school and will be counted as the first grade of the quarter. A hard copy of the packet will be given to each student before the end of the year so please make sure to be on the lookout for it. **Please wait until the summer to begin working on this packet.** If you lose, misplace, or just find yourself in need of another copy, you may find one posted on our school webpages at <https://www.yonkerspublicschools.org/gibran>. We hope this packet will help students feel more confident when returning to school in September. We look forward to seeing you all next year!

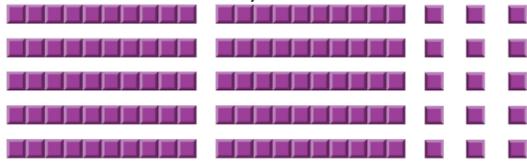

Have a wonderful summer!
