

Dear Parents/Guardians of a Sixth Grade Student:

The sixth grade team's overall focus is to assist your child in becoming:

An intellectually reflective person

Supplies for the first day of class:

1. 4 three-subject notebooks. We will go over how the notebooks and materials should be organized.
2. Pack of pens and a pack of pencils.

All other supplies can be brought in at a later date.

All students should have a planner in which they are to record their homework, keep their locker number, their combination, and their computer password. This planner is much like their ID card; it is to be with them at all times except for lunch.

Please check your child's planner nightly. Teachers often write notes in the planner. Please feel free to write a note to a teacher in the planner also. Your child should show the planner note to that teacher upon their return to school.

Summer Reading:

1. **Students should have picked one book from our 6th Grade Summer reading library. They should also have a packet that contains chapter questions from the book they are reading.**
2. **In addition, I am encouraging students to read two additional books from our district's summer reading packet. I have also given questions to answer after reading the book.**

Math:

1. **Students should practice math facts over the summer.**
2. **Log on to: IXL through clever**

We believe that it is essential that we work together with your child to provide the very best education possible. We meet as a team every other day and are happy to meet with you. You may email with your questions and concerns at anytime.
