

CYBER CAMP

INSPIRING THE NEXT GENERATION OF CYBER STARS

Interested in cybersecurity? Want to learn how to defend against cyber attacks? Attend a free 4-day program in June. Students will learn about the fundamentals of cybersecurity and career opportunities through dynamic hands-on challenges and simulations.

Learn about:

Hacking Drones

Live simulations of cyber attacks

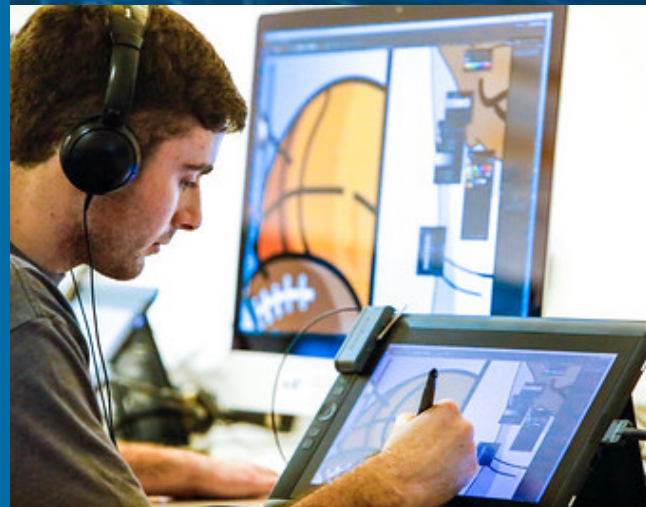

Escape-room cyber challenges

Hardware Village

Build a computer Networking Village

Create and test cables

and much, much more!

JUNE 20-23 10AM -1:30PM
