#Safety First

Supporting Students Who May Struggle with Wearing a Face Covering

For a student with a significant disability that limits their tolerance for wearing a face covering, PPE and other support will be provided to staff based on NYSED/DOH guidance, knowledge of the child's needs, and consideration of additional documentation or information shared by the parent.

It is important that this expectation not lead to conflict between or among children and staff. Children who refuse to wear a face covering, are crying, or are dysregulated, experiencing mental distress, or are causing staff and families additional distress, are not wearing strategies.

Foyer Entrance to Scholastic Academy of Excellence
