

OUR STORY

Here at Roosevelt, we value the education of our students by providing rigorous and relevant coursework. We have partnered with many institutes of higher learning to allow our students to obtain college credits. Roosevelt High School represents a diverse community that seeks to empower all our students to reach their potential.

ROOSEVELT HIGH SCHOOL EARLY COLLEGE STUDIES

ATHLETICS

Roosevelt is a center of athletics in Yonkers with brand new sports facilities: a turf field and a fully equipped weight room. We have many varsity teams including basketball, football, lacrosse, volleyball, soccer and baseball. Our teams play in championships and have brought home many trophies representing The Shark family spirit.

STUDENT LIFE

We have a broad offering of activities in the Gateway after school program. Gateway has basketball, dancing, a work out program, driver's education, automotive technology, gaming, cosmetology, drumline and much more. Roosevelt has many other events such as the Roose Awards, a film festival, field days and many community-oriented programs. See the Student Life section of our website for more information.

ACADEMICS

Early College

RHS-ECS is aligned with the Early College High School philosophy. Many classes are linked with colleges to allow our students to obtain credits. These credits can be transferable depending on the college. There are many academic supports in place to help our students succeed. Each school year there are over twenty college link course to choose from.

College of Westchester
Farmingdale State University
Iona College
Mercy College
Westchester Community College

Career and Technical Programs

Business and Media Communications is the career pathway designed to prepare students for college and careers with an emphasis on digital communications.

The Automotive Technology program prepares students for jobs combining theory with practical experience. Students develop diagnostic and repair skills associated with the maintenance of vehicles.

Graphic Design program provides students with an opportunity to learn the necessary skills to prepare for careers in advertising, digital media, publishing, or web design.
