EDUCATION
Making TEACHERS' lives EASIER

Sentence Building

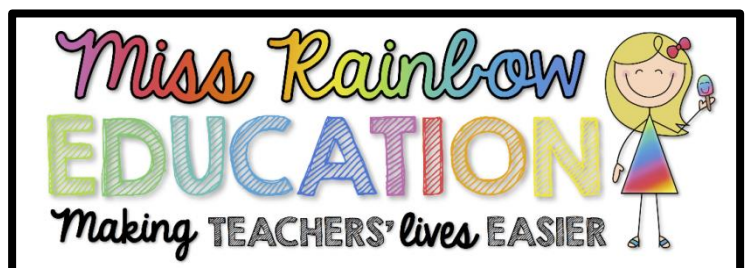

The following pack contains 70+ worksheets that can be used to build your students confidence with sentence structure. It has been based around the use of sight words and CVC words. Each worksheet has a picture clue on the page and also a checklist to make sure that they add in their capital letters and full-stops.

The students draw, write and build their sentences. The worksheets are easy to use and there is no preparation involved once you have printed them out.

I have included both 4 and 5 word sentences.

This is suitable for students from K-2.

Thank you to the following people for the use of their fonts or graphics.

--------	-----	-----	-----	-----

Make a picture of the sentence

A black and white line drawing of a branch with three leaves, located in the bottom right corner of the page. The branch is curved upwards and to the right, with three leaves of varying sizes attached to it. The leaves have a simple, stylized shape with a central vein and several smaller veins branching off. The drawing is done in a clean, minimalist style with no shading or texture.
