School Currently Attending Present Grade

I understand that the Academically Talented Programs are not part of the School Choice process. If my child qualifies for the Academically Talented Program this application replaces both my balloting choices and my child's current school assignment. If accepted, my child will **automatically** be placed **based on seat availability** for grades prekindergarten through eighth at PEARLS Hawthorne School. I also understand that Bilingual classes are NOT available in every school and by selecting a school without Bilingual services students will receive ESL services only.
