- * As an incoming fourth grade student, you MUST be proficient in your multiplication tables 0-12. Parents, it is extremely important that your child has mastered his or her multiplication tables, as these are crucial to the foundations of fourth grade mathematics. Using multiplication flashcards is a great way to review these facts. You can make them using index cards, purchase them at any dollar store/ Walmart/Target or get them online at www.mathfactscafe.com (free).
