COVID-19 Grading Systems Protocol

As a result of the COVID-19 pandemic and the subsequent school closures required by the Governor of the State of New York, the District has shifted to a Distance Learning Platform (hereinafter “DLP”). This shift creates a unique set of circumstances related to the continuity of learning, equity, and access. As always, but particularly during this unprecedented time, the District must eliminate practices which may perpetuate disparities among students, schools, and/or programs within the District and foster an environment in which students are not prevented from attaining success due to a lack of resources or opportunity. In accordance with NYSED guidance, the District shall consider the needs of all students and strive to ensure that its plan for the continuity of learning is equitable and available to all students. The District’s priority for instruction during this time will be to best prepare our students to meet the learning outcomes for their assigned courses and grant credit as long as the student has met the standards assessed in the provided coursework.

To best achieve this, the Board of Education shall suspend the District’s current grading systems established in Board Policy 4710, Grading Systems, and hereby establishes this temporary grading systems protocol to be implemented throughout the District. Since this is a rapidly evolving and continuously changing situation, the Board may amend this protocol, as necessary, to address the most currently available information including, but not limited to, new Executive Orders issued by the Governor of the State of New York, guidance issued by the New York State Education Department (NYSED), and guidance issued by the United States Department of Education (USDOE).

The below uniform grading system appropriate for elementary and secondary students shall be implemented for the remainder of the 2019 – 2020 school year, or until such time as the Board determines it is necessary to change this protocol or appropriate to return to the grading systems established in Board Policy 4710, whichever is sooner.

Student Grade Point Averages (GPAs)
Student GPAs for the 2019 – 2020 school year shall culminate at the end of the second marking period (January 24, 2020). Grades from the third and fourth marking periods shall not be calculated into a student’s GPA for the 2019 – 2020 school year. All grades from these marking periods will be included on a student’s official transcript; however, the grades will not be calculated into a student’s final cumulative GPA.

Students with Disabilities

For students with Individualized Education Plans (IEP), progress toward annual goals shall be reported on the student’s Progress Report for IEP Goals and provided to parents and/or persons in parental relation contemporaneously with student report cards.

In accordance with New York State laws, rules, and regulations, students with severe disabilities, who qualify for New York State alternate assessment (NYSAA) and for whom the standard performance indicators and/or assessments are not appropriate, shall be graded and/or assessed utilizing alternate performance indicators and/or assessments aligned with alternate academic achievement standards. Progress reports on these assessments will also be issued pursuant to applicable New York State laws, rules and regulations. The same considerations regarding student participation in the teacher’ DLP and the submission of completed assignments or Work Logs shall be utilized for students who participate in NYSAA.

Grade Change Requests

In accordance with the District’s current procedures and if warranted, a teacher may request to change a student’s previously assigned grade during the 2019 – 2020 school year to reflect a justified increase to that grade. All grade change requests must be submitted for approval to the Building Principal in writing on the District’s grade change form. The form must be signed by the teacher and shall include a justification for the grade change. All requests must be thoroughly reviewed by the Building Principal and grades may only be changed if the Building Principal authorizes the change in writing on the District’s form. A copy of said form shall be maintained in the student’s record whether or not it is approved. Upon the request of the Superintendent of Schools, his/her designee, and/or a District Central Office Administrator, the Building Principal shall be prepared to provide information regarding the justification for the grade change request and an explanation of their approval or rejection thereof.
